

NEW for January 2017

Silent Gliss Redesign the Metropole Corded Pole

Metropole – The Decorative Curtain Pole ...That Functions Like a Track!

Metropole is does not need curtains rings, the curtains hang directly on nylon gliders contained in a channel inside the pole.

However, unlike traditional curtain poles, the brackets attach to the top of the pole allowing the curtain to move smoothly throughout the complete length of the pole – no need for passing brackets, perfect for wide windows and large expanses of glass.

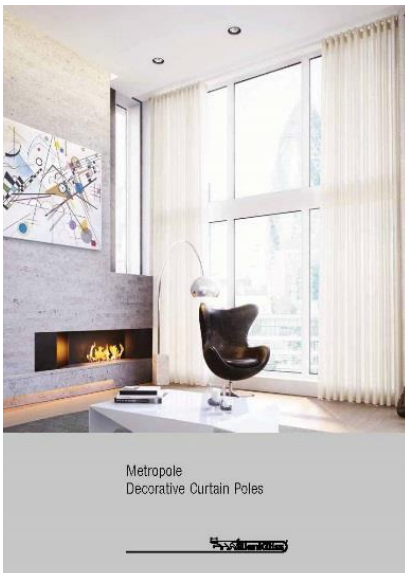

This extraordinarily successful product has now been improved...The corded pole has been redesigned to include an improved corded endset which is the same diameter as the pole for a seamless appearance. Whether hand, cord or electrically operated, with endcaps or finials, you can be assured of the same sleek design.

**Metropole Cord Operated
With Walnut Fused Barrel**

**Metropole Hand Operated
With Walnut Fused Barrel**

To find out more about the latest improvements and to see the extensive range of colours, sizes and decorative finials visit www.silentgliss.co.uk, or email info@silentgliss.co.uk and request a copy of the new brochure.
