# ROLLER BLIND FASCIA & BOX

## Shading's best kept secret

It's about what you cannot see. The roller blind fascias and headbox from Silent Gliss deliver the high-performance you expect from our systems whilst discreetly concealing them from view.

Form meets function as the self-contained blinds integrate flawlessly into any living and working environment, the sleek design complementing modern architecture.

### HEADBOX – COMPLETELY CONCEALED

The recessed headbox allows the roller blind to be concealed in the ceiling for an unobscured view when the fabric is rolled up. Access to the technology is guaranteed at all times.

### ROUND OR SQUARE

Whether curved or square, black or white, all components seamlessly integrate the roller blind into any room.

The bottom bar forms a flush finish when the roller blind is raised.

### SIDE GUIDE CHANNELS

Optional side guide channels for motorised roller blinds eliminate light gaps for room darkening.

### “CLICK-IN” FITTING

The powder-coated metal fascias and end covers are easily installed using a click-in mechanism.

## The Architects of Silence

*Silent Gliss is the leading global supplier of premium interior window treatments. Since 1952 we have been tirelessly committed to the development of the world's smoothest, quietest systems using state of the art technology.*

*Driven by customer needs, Silent Gliss offers functional and durable products. Expert technical advice coupled with installation and support services complete the offer.*

*Silent Gliss stands for innovative, sustainable, tailor made solutions, exceptional design and first-class quality.*
