

CPD SEMINARS

Silent Gliss are an authorised RIBA and BIID CPD provider. Our team of experienced presenters deliver our four seminars online or at your practice.

1. SOLAR SHADING IN MODERN INTERIORS

Solar Shading plays an increasingly important role in managing and controlling solar gain in buildings, with economic, environmental, legislative implications as well as impacting on occupant comfort. Learn about:

- Solar protection in the workplace
- Building legislation
- Commonly used shading systems and screen fabrics
- Specifying window treatments

2. SMART SHADING CONNECTED HOMES

Smart technology impacts on how we design buildings. It allows us to integrate products and services, including curtains and blinds. Understand the benefits of Smart Shading in residential projects. Learn about:

- Industry trends in Smart technology
- Control options for shading connected homes
- Specifying Smart Shading
- Commonly used motorised Smart Shading systems

3. SPECIFYING CURTAINS

Curtains are increasingly the shading solution of choice for the home and workplace environments. They combine aesthetics with functional benefits such as solar and acoustic control, at the same time creating beautiful and welcoming interiors. Learn about:

- The pros and cons of the different heading styles
- How curtains can be used to divide up large spaces
- The considerations when specifying curtains in workplaces

4. TRANSFORMATIVE SHADING

Curtains and blinds transform interior spaces in so many ways. Shading systems offer opportunities to create remarkable spaces beyond controlling sunlight. Here is an opportunity to expand your paradigms regarding shading. Learn about:

- Transformative shading through Design
- Transformative shading through Use
- Transformative shading through Building Performance.
