

SWISS PLEAT AND
WAVE CURTAINS

Silent Gliss

BESPOKE CURTAINS

Made-to-measure curtains

The Silent Gliss made-to-measure curtain offer combines premium curtain track systems with a remarkable range of fabrics sewn by our experienced team of curtain makers.

Select from our unique Swiss Pleat, or the contemporary Wave curtain headings. Made from carefully selected and tested fabrics in The Collection by Silent Gliss.

THE SILENT GLISS PROMISE

Precision engineered curtain tracks combined with beautiful fabrics sewn by in-house specialists, supported with the highest level of customer service – that's our promise.

SWISS PLEAT CURTAIN HEADING

Our unique Swiss Pleat headings offer a delicate, understated heading aligned with more traditional curtain design.

WAVE CURTAIN HEADING

The Wave curtain heading transforms traditional curtains into a striking, modern design statement.

Swiss Pleat curtain heading

The Swiss Pleat is a unique curtain heading only available from Silent Gliss. Using bespoke high-performance gliders sewn into the curtain, it is an understated alternative to traditional curtain headings.

Offered in two fullness options, the shallow heading design is particularly suited to layered or lightweight curtains, or where fitting space is limited. Swiss Pleat curtains are available on a wide range of Silent Gliss hand, cord and electrically operated tracks, including Metropole.

Swiss Single Pleat –
1.5 fullness for a lighter curtain.

Swiss Double Pleat –
2.0 fullness for a denser curtain.

Wave curtain heading

Silent Gliss has created a unique curtain heading system that turns traditional curtains into a striking, modern design statement.

As an alternative to traditional headings, Wave offers a more contemporary look throughout the curtain drop: when opened, the curtains stack back neatly, and when closed the fabric hangs in a smooth, continuous wave.

NEAT CURTAIN STACK-BACK

Undulating curves when your curtains are closed transform into a neat stack-back when opened.

80mm Wave for a deep, defined shape.

60mm Waves for a subtle, flowing finish.

PLANNING YOUR CURTAIN

Wave is offered in 60mm and 80mm depths to accommodate preferred styles and fitting considerations.

Available across a wide range of hand, cord and electrically operated tracks, using our unique 2C silent glider you are assured of the same premium performance you've come to expect from Silent Gliss.

Select from a broad range of fabrics from The Collection by Silent Gliss, all tested and proven to deliver a stunning wave finish throughout the drop of the curtain.

The reinvention of the classic curtain.

Fabrics – beyond decoration

Silent Gliss offers a wide range of fabrics tested and proven to work on both the Wave and Swiss Pleat curtain headings.

From sheer to blackout, plain and textured fabrics, The Collection presents curtain fabrics in colours to complement any interior design scheme.

All Silent Gliss fabrics are flame retardant, and many have proven acoustic performance and sustainability credentials. The Collection also includes fabrics with antimicrobial and antibacterial properties for healthcare environments.

Check out the Silent Gliss online fabric finder.

Textured fabrics which closely resemble natural fibres but are flame retardant

Technically superior fabrics with an aluminium backing for increased heat and light reflection

Dimout fabrics for room darkening

Antibacterial and stain-resistant fabrics suited to healthcare environments

COLORAMA® – A SILENT GLISS EXCLUSIVE

In 1981 Silent Gliss introduced an exclusive fabric that was to transform the internal shading industry: **Colorama**.

This sophisticated, soft and flame retardant fabric is woven to guarantee optimum hanging performance for both Swiss Pleat and Wave curtains. Such is its versatility it's available in thirty colours, three transparencies and various finishes including Acoustic, Multicolour, Eco and Bioactive. In addition to being highly decorative Colorama has Standard 100 by Oeko-Tex® and Cradle to Cradle Certified™ Bronze sustainability credentials.

Colorama Acoustic with superior acoustic performance which belies its agile appearance

Colorama Multicolour woven with multicolour yarn for attenuated colour and texture

Colorama Eco made from 100% recycled pre-consumer polyester

Colorama Bioactive, antibacterial with inherent silver ions, suited to healthcare environments

Quality since 1952

When choosing Silent Gliss made-to-measure curtains you are assured of high-end products and manufacturing standards associated with an established, global, market-leading brand.

Our experienced, trained staff are on hand to offer advice and expertise to support the most challenging of projects. Regardless of the level of complexity, Silent Gliss can guide you through the process from measuring to fitting the finished curtains.

THE SILENT REVOLUTION

Silent Gliss premium 2C gliders and rollers combined with the specially coated tracks allow curtains to move smoothly and silently.

Used for both Swiss Pleat and Wave curtain headings, these gliders are manufactured using 2 materials, a hard component which ensures stability and a soft 'filling' to absorb the noise. The end result is unprecedented silence.

SOPHISTICATED WALL FITTING

Smart fix brackets are a sophisticated and uniform bracket range which includes magnetic metal covers which elegantly hide the screw.

NEATLY HIDDEN

Recess profiles are available that can be bent to the tightest radii – the curtains appear to literally hang from the ceiling!

THE BENDING SPECIALIST

Silent Gliss tracks can be forward and reverse bent to accommodate the most challenging installations. Advanced techniques and years of experience ensure maximum gliding efficiency on the tightest curves.

The Architects of Silence.

The Architects of Silence

Silent Gliss is the leading global supplier of premium interior window treatments. Since 1952 we have been tirelessly committed to the development of the worlds' smoothest, quietest systems using state of the art technology.

Driven by customer needs, Silent Gliss offers functional and durable products. Expert technical advice coupled with installation and support services complete the offer. Silent Gliss stands for innovative, sustainable, tailor made solutions, exceptional design and first-class quality.
